In a world where climate change is becoming increasingly apparent, gardening may seem like a daunting task. Extreme weather events, such as droughts, floods, and heat waves, can make it difficult to grow plants that are both beautiful and productive. However, Rosanna Haller's book, *Extreme Gardening: The Climate-Proof Garden*, provides hope and guidance for gardeners of all levels.

Haller, a renowned horticulturist and landscape designer, has spent years researching and experimenting with plants that can withstand extreme weather conditions. In her book, she shares her knowledge and experience, providing readers with practical advice and inspiration for creating a beautiful, resilient, and productive garden that will thrive in the face of climate change.

Extreme Gardening is divided into three parts. The first part provides an overview of the challenges that climate change poses to gardeners. Haller discusses the effects of drought, heat, flooding, and extreme cold on plants, and she offers advice on how to protect plants from these conditions.

The second part of the book focuses on specific plants that are well-suited to extreme weather conditions. Haller provides detailed descriptions of each plant, including its hardiness zone, its water and light requirements, and its tolerance for drought, heat, and cold. She also includes tips on how to grow these plants successfully in a variety of climates.

The third part of the book provides advice on how to design and manage a climate-proof garden. Haller discusses the importance of soil health, water conservation, and pest control, and she offers tips on how to create a garden that is both beautiful and sustainable.

Extreme Gardening is an essential guide for gardeners of all levels who want to create a beautiful, resilient, and productive garden that will thrive in the face of climate change. Haller's practical advice and inspiration will help you to create a garden that you can enjoy for years to come.

About the Author

Rosanna Haller is a renowned horticulturist, landscape designer, and author.
