Synopsis

When It Snows is a captivating winter adventure novel that follows the journey of two strangers who find themselves stranded in a remote cabin during a snowstorm. As they wait out the storm, they share stories of their lives and discover a hidden connection that will change their lives forever.

Emily is a young woman who has recently lost her job and is struggling to find her place in the world. She decides to take a solo trip to the mountains to clear her head and find some peace. However, her plans are interrupted when she is caught in a snowstorm and forced to take refuge in a nearby cabin.

Jack is a man who has been living in the mountains for years. He is a skilled outdoorsman and knows the land like the back of his hand. When he sees Emily stranded in the storm, he takes her in and offers her shelter.

As the storm rages outside, Emily and Jack find themselves drawn to each other. They talk about their lives, their dreams, and their fears. They discover that they have more in common than they thought, and they begin to fall in love.

But their newfound love is put to the test when the storm intensifies and they are forced to face their own mortality. They must rely on each other to survive and find a way to get back to safety.

Reviews

"When It Snows is a beautiful and heartwarming story about love, loss, and the power of human connection. I couldn't put it down!" - Goodreads reviewer

"This book is a must-read for anyone who loves winter adventure novels. It's full of suspense, romance, and heartwarming moments that will stay with you long after you finish reading it." - Our Book Library reviewer
